

Sterile Arthrodesis & Kirschner Wires

Proud to be a family-run
British company

Why Choose Sterile?

Safer for Patients

The Scottish Executive Health Department¹ found evidence that reprocessed products “retain or acquire organic and/or chemical residues during use and reprocessing. There is evidence to suggest that reprocessed steel implants can cause inflammatory reactions to a much greater degree than ‘pristine’ devices as delivered by the manufacturer.”

Improved Performance

Repeated reprocessing creates concerns about corrosion, weakening and surface oxidation, which could affect implant failures¹.

- ✓ **Highest grade implant quality stainless steel to ISO 5832-1**
- ✓ **Reduces risk of sharps injuries to Sterile Services personnel**
- ✓ **Surgical Holdings holds all popular sizes in stock and can manufacture any custom size, including threaded wires**

Manufacturer and Repairer of Surgical Instruments

SMART REPAIR

SURGIFIX
ONLINE PORTAL

REPAIR OR
PROMISE
REPLACE

Smart Repair is our unique repair service for surgical instruments, offering the promise of long-term value for money in choosing the sustainable option, and a product replacement if we are unable to return the instrument to an 'as new' condition*.

In choosing our innovative Smart Repair service, customers benefit from dashboard access to our Surgifix Online Portal, enabling you to book, manage and monitor repairs online with your own assigned log in. Instantly communicate directly with the repair team to stay up-to-date with the live progress of repairs and the option to view historical scope repair reports.

*For the price of the repair. Applies to the 50 most used and repaired products, correct at the time of going to press.
